Curriculum Vitae

.NET Developer | Full-Stack, Backend, Frontend

SUMMARY

As a developer, I specialize mainly in **Backend ASP.NET Core** and **MSSQL**, but I'm also enthusiastic about exploring **Frontend** and new technologies. I'm eager to learn new things and take on challenges.

I have recently completed my studies in **Business Application Developer** and am writing my bachelor's thesis, which is a **Clinic Pulse** application for managing healthcare facilities. It consists of a web application (**ASP.NET Core 6 MVC**) and a mobile application (**.NET MAUI**).

I am looking to secure a full-time position as a **.NET Developer**.

I am constantly evolving, so I showcase my current skills in the Main Project and what I am learning in the Next Project.

EDUCATION

October 2019 - June 2023

Wyższa Szkoła Biznesu - National Louis University
Nowy Sącz, Poland (wsb-nlu.edu.pl)
Business Application Developer

I am in the process of writing my bachelor's thesis.

Polish: native

WORK EXPERIENCE

December 2022 - to present
FT Klima, Sandefjord Norway
Heat pump and ventilation installer

I am responsible for daily contact with clients and dynamically solve tasks that arise during the day. I organize my work, order goods, and establish work schedules with clients.

2015 - December 2021
Atec Bemmanning, Jobzone
Work in the construction industry in Norway

I worked in various cities across Norway in the construction industry as a carpenter and painter.

1995 - 2015
Founder of a Private Limited Company
General construction services

SKILLS

Core Competencies
- Familiarity and ongoing learning in .NET Core, MSSQL, C#, HTML, CSS, JS, Node.js
- Libraries and frameworks: ASP.NET Core MVC, ASP.NET Core Web API, .NET Framework, Entity Framework, MediatR, AutoMapper, FluentValidation, xUnit, Moq
- Efficient work with version control systems like Git and GitHub
- Experience with unit and integration tests
- Ability to work as a full-stack developer
- Continual development of skills related to design patterns, as well as CRUD, SOLID, and CQRS
- Practical application of Onion Architecture in projects
- I am precise and like clean code

Soft Skills
- Team player with excellent communication skills
- Goal-oriented with the ability to look from multiple perspectives
- Analytical thinking and problem-solving skills in crisis situations
- Long-term focus on the implementation of ideas
- Quick adaptation to changing requirements
- Perseverance and determination in achieving goals
- Easy adaptation to an international work environment

Project Management
- Understanding of Agile methodology and principles of Scrum and Kanban
- Knowledge of systems and software engineering
- Committed to the entire software creation process, from conception to deployment.
- Effective time management and work organization
- Experience in effective teamwork

Continuous Learning
- Expanding skills in working with Azure Cloud.
- Increasing ability to work with Docker containers.
- Other programming languages: Python, PHP, Java, C, C++, JS, Node.js.
- Always eager to learn new technologies and methodologies to expand my skill set and create effective solutions
